 Inventory is subject to change without notice.

SUPPLIMENTARY RENTAL INVENTORY:

Please contact the LCA Production Services Coordinator at (925) 295-1410 for additional information, availability, and scheduling requests.

LIGHTING NOTES

1601 Civic Dr. Walnut Creek CA 94596 (925) 295-1400 lesherartscenter.org

Special Notes to the Lighting Department

Welcome to the Leshar Center for the Arts. This sheet is intended to make your upcoming tech time run as smoothly as possible.

- The Leshar Center for the Arts maintains a permanent house plot, which may not be altered. We invite you to use the house plot as a foundation to build on as it includes many of the basic washes you may use. House plot units must remain in their hung positions as circuited and as focused.
- The lighting console, remote focus unit and follow spots, if used, must be operated by Center staff and the crew used for the hang must consist of Center approved workers. In order to approve someone not already on our list, please contact the Production Services Coordinator at (925) 295-1410.
- The sooner the design gets to us and we are able to check it the better. Your contract requires that all information (plot, instrument schedule, rental requests etc.) be submitted to the Center no later than four weeks prior to your load-in. If your information is received after the four-week deadline, inventory and rental requests cannot be guaranteed and implementation of your design may be affected.
- The grand drape and all doors must be allowed to close without interference from lighting equipment, i.e., instruments, barn doors, cabling. Frequent strikes and restores may be necessary during the run of your show so cable breaks and labels should be used when appropriate. Unless specifically pre-authorized, all cabling methods are subject to the approval of the LCA electrician on site.
- Only stage management and Center operators are permitted in the booth. All other technical staff must have their own ticket to gain access to the house during a performance. If you wish to view any performance from the house (including opening night) you must obtain a ticket from your producer.
- Please- no food or drink onstage, in the booth or in the house.
- Your producer has been sent a detailed information package concerning every aspect of the Center's operation, including lighting. Additional information about our facilities is available at lesherartscenter.org.
